The list of administrators who are receiving a non-extension of contract is extensive due to the decision to move from rolling two-year contracts to straight two-year contracts and the desire for the Board and administration to have approximately half of the administrators on odd-year contracts and half on even-year contracts. Other than the normal one-year contracted administrators, volunteers were solicited to accept a non-extension this year and then accept a two-year contract for 2014-16. The list is by no means meant to signify that these administrators will be non-renewed in 2014.

Non-Extensions for 2014-15
