**TO:** Members of the Board of Education

**FROM:** Robert Nadler, Executive Director of Human Resources

**RE:** Two-year Administrator Contracts

---

The list of administrators who are receiving a non-extension of contract is extensive due to the decision to move from rolling two-year contracts to straight two-year contracts and the desire to have approximately half of the administrators on odd-year contracts and half on even-year contracts. Other than the normal one-year contracted administrators, volunteers were solicited from the group of administrators who would have normally received a one-year contract extension to accept a non-extension this year and then accept a two-year contract for 2014-16. After the volunteers were accounted for, a lottery was held.

There is a group of 33 administrators in their first two years of employment with the district who are on one-year contracts. These contracts were approved in January 2013 and are not reflected on the attached lists (REVISED Appendix OOO-12-5).
