Michael Barry, Assistant Superintendent for Business Services

Jennifer Cheatham, Ed.D., Superintendent of Schools

October 14, 2013

Appendix PPP-4-4

**MMSD Financial Report  
Quarter 1, 2013-14****Financial Results for 2012-13**

MMSD financial results for 2012-13 were favorable in comparison to budget expectations. The General Fund Balance, which was budgeted to decrease by (\$5.5) million to support several one-time expenditures, actually decreased by just (\$1.6) million. This puts the District's balance sheet in a stronger opening position for 2013-14. The primary reason for the favorable result was an unbudgeted revenue influx of \$3.2 million from Medicaid reimbursements.

However, the Food Service Fund struggled in 2012-13, recording a net loss of \$386,000 on total revenues of \$10.5 million. Labor cost overages were the primary cause of the net loss. The Business Office is working closely with the Food Service department on budgetary expectations for 2013-14. Overall participation in the program decreased slightly last year.

**Auditor's Report for 2012-13**

The Board is scheduled to receive the Independent Auditor's Report for the year ended June 30, 2013 at the Operations Committee meeting next month.

**Short Term Borrowing – 2013**

The short-term cash flow borrowing of \$64.5 million was recently completed. RW Baird reported that MMSD's net interest rate of 0.19% was the lowest of any Wisconsin school district this year. The District's Aaa bond rating and the relatively large size of the note were the major factors in generating the 0.19% interest rate.

**3<sup>rd</sup> Friday Enrollment Count and the Revenue Limit Formula**

The 3<sup>rd</sup> Friday count is a factor in the Revenue Limit Formula. The formula uses an 'adjusted resident count' which differs from the basic head count of students attending MMSD. The 'adjustment' has to do with the open enrollment program and special counting rules for pupils who attend less than full-time, such as 4K students.

MMSD's Revenue Limit Formula used a projected 'adjusted enrollment' of 27,370. The actual is result is slightly lower, at 27,191. When factored into the formula, the net result a Revenue Limit Maximum which is \$600,000 less than the previous estimate. However, since MMSD is not levying to the maximum, this reduction in total levy authority has no immediate financial impact.

Open enrollment results show 370 students enrolling in to MMSD from elsewhere and 1,206 MMSD residents enrolling outside of the district. The net out is -836.

(Last year, MMSD had 379 students enrolling in and 1,118 enrolling out, for a net out of -739.)

### **Equalized Tax Base**

The MMSD equalized tax base slightly increased by 0.33% (1/3 of 1%) from \$21.647 billion to \$21.722 billion. While the increase is slight, it is important to note that this is the first increase in the MMSD equalized tax base since 2008. Generally, a growing equalized tax base is desirable and results in a lower equalized tax rate.

### **Equalization Aid Estimate**

As you will recall, the July 1 equalization aid estimate reported a 15% aid loss for MMSD. The final aid estimate is scheduled to be published on Tuesday, October 15, 2013. Although there are news reports this week of a potential last minute increase in equalization aid funding, we continue to budget on the assumption of a 15% aid loss.

### **Tax Levy Adoption for 2013-14**

The Board will be asked to adopt a tax levy at the October 28, 2013 Board meeting. We do not expect a material change from the levy increase included in the preliminary budget approved in August.

### **2013-14 Budget Revisions**

The Board will be asked to adopt a Fall Revised Budget for 2013-14 at the October 28, 2013 Board meeting. This action is a 'mid-course adjustment' to the budget based on final results for such key budget factors as student enrollment, staffing, state/federal grants, state aid, and the local tax levy. The Business Office is completing a detailed review of the 2013-14 budget to ensure its overall accuracy.

-End-

## Quarterly Financial Reports Description

### Revenue Detail Report

The Revenue Detail Report provides two sets of data for base comparison of how MMSD is doing in the current fiscal year to the past fiscal year.

The report categorizes the revenues by source within each fund. Each set of data is for a different fiscal year. The first set of data is the prior fiscal year (2012-13) and has the following data:

1. Total Audited Revenue in the first column;
2. Year-to-Date total revenue received as of the month of the report being run (September 2012) in the second column;
3. The Balance Column (column 3) calculates the difference between Total Audited and YTD Received or Column 1 and Column 2;
4. The Percent Received column is showing what percent has been received to date on the prior fiscal year based on that month's year to date.

The second set of data contains the current fiscal year with the budget and actual dollars received. The data included is as follows:

1. The Original is the August Budget adopted by the Board of Education in the first column,
2. The second column shows the Revised Budget which will normally represent the Fall Revised Budget and Tax Levy adopted by the Board of Education; however that has not been completed so it currently represents the August Budget,
3. Year-to-Date total revenue received as of the month of the report being run (September 2013) in the third column;
4. The Balance Column (column 4) calculates the difference between Total Audited and YTD Received or Column 2 and Column 3;
5. The Percent Received column is showing what percent has been received to date on the prior fiscal year based on that month year to date.

### Quarterly Financial Reports Description

#### 3 Year Actuals/Budgets for the Month of September

The 3 Year Actual/Budget Report provides three sets of data for comparison on how MMSD is doing in the current fiscal year to the past fiscal year.

The report categorizes expenditures by Object within the Fund. Each set of data will have different comparability criteria. The first set of data is for the current reporting month and has the following data:

1. The first column contains the 2011-12 actual expenditures for September 2011,
2. The second column contains the 2012-13 actual expenditures for September 2012,
3. The third column contains the 2013-14 actual expenditures for September 2013,
4. The fourth column contains a calculation for the variance between September 2012 and September 2013,

The third set of data is for the fiscal year-to-date expenditures as of the month being reported. The data included is as follows:

1. The first column contains the 2011-12 actual year-to-date expenditures,
2. The second column contains the 2012-13 actual year-to-date expenditures,
3. The third column contains the 2013-14 actual year-to-date expenditures,
4. The fourth column contains a calculation for the variance between September 2012 and September 2013,

The second set of data is for the fiscal year's budget. The data included is as follows:

1. The first column is the prior year Fall Revised Budget and Tax Levy adopted,
2. The second column is the current year Original Adopted Budget,
3. The third column is the percentage of the prior year amount expended in the third sections year-to-date expenditures for the prior year against the prior budget in column 1,
4. The fourth column is the percentage of the current year amount expended in the third data sections year-to-date expenditures for the current year against the prior budget in column 2,
