### ***Analysis by the Legislative Reference Bureau***

This bill authorizes the director of the Office of Educational Opportunity in the University of Wisconsin System to contract with a person to operate, as a four-year pilot project, one recovery charter school for no more than 15 high school pupils in recovery from substance use disorder or dependency. Under the bill, the operator must provide an academic curriculum that satisfies the requirement for graduation from high school as well as therapeutic programming and support for pupils attending the charter school. The bill requires a pupil who wishes to attend the

**BILL**

recovery charter school to apply and to agree to all of the following: 1) that the pupil has begun treatment in a substance use disorder or dependency program; 2) that the pupil has maintained sobriety for at 30 days prior to attending the charter school; and 3) that the pupil will submit to a drug screening assessment and, if appropriate, a drug test prior to being admitted. The operator of the charter school may not admit a pupil who tests positive for the presence of a drug in his or her system. In addition, a pupil who enrolls in the school must receive counseling from substance use disorder or dependency counselors while enrolled in the charter school.

The contract between the operator of the recovery charter school and OEO must contain a requirement that, as a condition of continuing enrollment, an applicant for enrollment in the recovery charter school submit claims for coverage of certain services provided by the recovery charter school to his or her health care plan for which the applicant is covered for mental health services. The bill also requires the director of OEO to, following the fourth year of the operation of the charter school, submit a written report to the Department of Health Services regarding the operation and effectiveness of the charter school.

The bill permits the state superintendent to award a start-up grant towards the establishment of the recovery charter school of up to \$50,000 in fiscal year 2017-18 if the director of OEO procures matching funds equal to the amount of the grant. Under the bill, the Department of Public Instruction must pay to the operator of the recovery charter school the same per pupil amount as is paid to the operator of other charter schools.

The bill prohibits a health care policy, plan, or contract from excluding coverage for mental health or behavioral health treatment or services provided by the recovery charter school if the policy, plan, or contract covers mental health or behavior health treatment or services when provided by another health care provider.

This proposal may contain a health insurance mandate requiring a social and financial impact report under s. 601.423, stats.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
