**DPI Notes:** The resource only includes decodable books and related phonics lesson plans. The only skill that is explicitly and systematically taught is phonics. This supplemental resource was not rated in Ed Reports.

## Glossary

**Building background knowledge:** Refers to the information that children learn and store in their memories, including details about themselves, other people, objects, and the surrounding world, encompassing beliefs, values, rules, and expectations within children's cultures, environments, and languages (National Center on Early Childhood Development, Teaching and Learning, 2022, p. 3).

**Explicit instruction:** Refers to an instructional model whereby a teacher gradually decreases the level of support to students through starting with a clear, memorable model, followed by guided practice supported with positive corrective feedback, utilizing preclude language to enable successful task completion, ultimately release the students to apply the learning independently (Graham et al., 2017; WI DPI, 2020a, p. 40).

**Instruction in comprehension:** Refers to the process of simultaneously extracting and constructing meaning through interaction and involvement with written language. Extracting meaning is to understand what an author has stated, explicitly or implicitly. Constructing meaning is to interpret

what an author has said by bringing one's "capacities, abilities, knowledge, and experiences" to bear on what he or she is reading (Shanahan and others, 2010).

**Instruction in writing:** Refers to the "process through which people communicate thoughts and ideas... can include beginning scribbles, drawings, random letter strings, single-letter spellings, invented spelling, or complete sentences and paragraphs... also can include students dictating ideas to an adult or peer for transcription" (Graham et al., 2018, p.42).

**Oral language development:** Refers to developing a "system of words and word combinations used to communicate with others through speaking and listening" (Foorman et al., 2016; Kosanovich et al., 2020, p. 1).

**Phonemic awareness:** Refers to the skills of identifying, isolating, blending, segmenting, and manipulating (adding, substituting, deleting) phonemes (WI Act 20, Section 11, 2023).

**Phonics:** Refers to the "relationships between sounds and words; this includes alphabetic principle, decoding, orthographic knowledge, encoding, and fluency" (WI Act 20, Section 11, 2023).

**Phonological awareness:** Refers to the skills of word awareness, rhyme recognition, repetition and creation of alliteration, syllable counting or identification, onset, and rime manipulation (WI Act 20, Section 11, 2023).

**Reading fluency:** Refers to reading with accuracy, automaticity, and prosody (WI DPI, 2020b, p.76).

**Systematic instruction:** Refers to "intentionally teaching identifiable skills within a scope and sequence" (WI DPI, 2020a, p. 44).

**Three-cueing:** Refers to "...any model, including the model referred to as meaning, structure, and visual cues, or MSV, of teaching a pupil to read based on meaning, structure and syntax, and visual cues or memory."

**Vocabulary building:** Refers to knowing words and word meanings, encompassing both expressive (words said or produced) and receptive vocabulary (words heard and understood) (Kosanovich, 2020, p. 1).
